Empathy Map

Date	3 October 2026
Team ID	SWTID-2026-9282
Project Name	ComicCraft – AI Comic Story Creator using Gemini Models
Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS

- "I have so many story ideas, but I can't draw them."
- "Can the AI write the story and dialogues for me?"
- "I want to see my story as a comic quickly."

THINKS

- Making a comic by hand will take too much time and skill.
- Will the AI characters and images stay consistent across panels?
- It would be great if one tool did everything for me.

AARAV
(Aspiring Comic Storyteller / Student Creator)

DOES

- Writes short story ideas and topics in notes.
- Tries different tools for story writing and image creation.
- Looks for a simple way to preview and download the finished comic.

FEELS

- Frustrated by the effort manual comic-making needs.
- Excited about turning an idea into a comic with AI.
- Proud and motivated when the comic is ready to share.
