Project Name	ComicCraft - AI Comic Story Creator using Gemini Models
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	**Stage 1: Discovery & Onboarding**	**Stage 2: Story & Comic Generation**	**Stage 3: Edit, Export & Share**
Actions *What does the customer do?*	• Hears about ComicCraft through social media, friends or a college event • Opens the web app and browses sample AI-generated comics • Signs up or logs in with a Google account	• Types a story idea or prompt (e.g., "a robot who learns to paint") • Chooses genre, art style, characters and number of panels • Clicks Generate and waits for the panels to appear	• Reviews the panels and regenerates the ones that look off • Edits dialogue, captions and panel order • Downloads the comic as PDF/image or shares a link
Touchpoint *What part of the service do they interact with?*	• Landing page and sample comic gallery • Social media posts and word of mouth • Sign-up / login screen	• Prompt box and style selector • Gemini text model (script and panel breakdown) • Gemini image model (panel artwork) and loading screen	• Comic editor with panel regenerate option • Export / download feature • Share link and social media platforms
Customer Thought *What is the customer thinking?*	• "Can AI really turn my idea into a comic?" • "Is it free and easy to start?" • "Do I need any drawing skills?"	• "Will my characters look the same in every panel?" • "Why is this taking so long?" • "Is this what I imagined?"	• "I want to tweak this speech bubble." • "Can I save it in good quality?" • "My friends will love this!"
Customer Feeling *What is the customer feeling?*	• Curious and excited • Slightly skeptical about the quality of AI art	• Hopeful while writing the prompt • Impatient during generation • Delighted when the first panels appear	• Proud and satisfied with the result • Frustrated if editing options are limited • Motivated to create more comics

Process Ownership *Who is in the lead on this?*	Marketing and Product Team	AI/ML Engineering Team (Gemini integration) with UX Design Team	Product and Frontend Team, with Customer Support for feedback
Opportunities *How can we improve this stage?*	• Try-before-signup interactive demo • One-click social login • Short guided onboarding tour	• Live progress bar with panel previews • Keep character look consistent using reference prompts • Prompt suggestions and story templates	• Drag-and-drop editing of text and layout • High-resolution export in multiple formats • Personal gallery, community sharing and feedback prompt
